About Me

Junior Front End Developer at **Twotwentyseven**, graduated in Software Engineering at General Assembly with a background in Business Administration and Management.

Working in a fast-paced environment, I enjoy every day at work and I love learning and developing new skills.

I lived in five different countries which helped me developing strong skills and a global mind-set.

Technical Skills and Languages

- **Programming Languages and web tools:** JavaScript, jQuery, HTML5, CSS3, Sass, LESS, Foundation Zurb, Bootstrap, Liquid Template, Shopify.
- **Testing:** Selenium Webdriver and Lambdatest.
- **Design:** Sketch, Photoshop.
- **Additional skills:** Native Spanish, Teamwork, Adaptability, Problem solving and Communication.

Web Development Experience

- **Twotwentyseven**, Junior Front-End Developer, London, March '19.
 - Working as a **Junior Front-End Developer**, in a fast-paced environment, alongside with senior backend, front-end developers and designers.
 - Creating eCommerce sites with Shopify and CMS features, following a mobile first approach.
 - Transforming complex Photoshop and Sketch designs into pixel-perfect websites.
 - Handling multiple projects, maintaining and updating website content from client requests, always testing every change.

- Developing strong attention to detail, great coding standards and the ability to work with tight deadlines, conscious about the importance of testing every change to give the best user experience.
- **Technologies applied in the daily work** are HTML, CSS, SASS, JavaScript, jQuery, Foundation Zurb, Bootstrap, Sketch, Photoshop, Git and SVN version control systems, LambdaTest and PHP.

- **Web Development Immersive Student**, General Assembly London, Sept - Dec '18.

During the program, I have learnt the fundamentals of programming in very diverse ways like coding challenges, individual and group practices and talks from industry professionals within others.

I have been able to work on four exciting **portfolio** projects, two individual and two of them in a group where I learnt how to program with others, it gave me the opportunity to develop the skills that are essential to become a resourceful and effective web developer.

The main technologies I used during the course: HTML5, CSS3, JavaScript, MERN stack, Angular, Git, Mocha and chai for testing.

Previous Experience

- JJ Food Service, **Buyer**, London 2015 - 2018.
- Café Burdet, **Export Manager**, Spain, 2014.
- Oh My Cut!, **International Expansion Manager**, Mexico City, 2013.
- Los Amigos Group Limited, **Import And Export Manager**, Hong Kong, 2012.

For full career breakdown, please refer to my **LinkedIn** profile.

Education

- **General Assembly**, Software Engineering, 2019, London.
- **UCH-CEU University**, BA (Hons) in Business Administration and Management, 2008, Alicante.

Hobbies and Interests

- Programming books and tutorials.
- Going to gym and playing football.
- A good Netflix binge.
- Meditation.
